Repose
Specialist Seating Solutions

Boston

The Boston has a unique combination, of Tilt in Space and independently controlled back recline and leg elevation.

Boston

The Boston is engineered to meet the needs of semi-ambulant and non-ambulant users with a range of additional support features to modify the chair to individual needs.

The Boston is available in either a manual or electric model.

Key features at a glance:

- Independent Tilt in Space
- Independent backrest recline
- Independent leg rest adjustment
- Choice of interchangeable pressure management seat cushions
- Choice of interchangeable and adjustable back cushions
- Full seat cover to remove pinch points and increase comfort
- Seat depth adjustment
- Full profile leg rest for added support
- Optional height and angle adjustable footplate
- Heavy-duty push handle with rubber grips
- Wing handles for ease of manoeuvring
- D-rings fitted as standard
- Four heavy duty lockable castors
- Pocket on rear for client case documents
- Removable chaise and footplate covers
- The electric model comes with a rechargeable battery system for mains free usage.

Additional options:

- Replacement chaise and footplate cover
- Lap strap and pad
- Seat depth adjustment pads
- Wedge adjustment blockers
- Detachable footplate pad for extra comfort
- Range of headrests.

"The Boston meets the needs of both semi and non-ambulant users with deep comfort and adaptable pressure management features at the heart of this chair"
